

### **IPT-Pouch 2.0:** 9.5”X11” (Peel & Stick Tape)..... MSRP \$1.99

Replaced once per month or PRN, the IPT-Pouch with Peel & Stick tape is a replacement technology for plastic bags used for storing reusable nasal cannula, HHN’s and other respiratory devices. Plastic bags retain moisture and allow harmful microbes to survive and thrive. The IPT-Pouch is made from a breathable wicking material that removes moisture allowing the microbes to die naturally.

### **IPD-Pouch 2.0:** 9.5”X11” (Drawstrings) ..... MSRP \$1.99

Replaced once per month or PRN, the IPD-Pouch with Drawstrings is a replacement technology for plastic bags used for storing reusable nasal cannula, HHN’s and other respiratory devices. The IPD-Pouch is made from a breathable wicking material that removes moisture allowing the microbes to die naturally. In addition, the IPD-Pouch can also be used to store personal items that can benefit from being stored in a breathable protective pouch.

### **IPV-Pouch 2.0:** 9.5”X11” (Velcro Straps)..... MSRP \$1.99

Replaced once per month or PRN, the IPV-Pouch with Velcro Straps is a replacement technology for plastic bags used for storing reusable nasal cannula, HHN’s and other respiratory devices. The Velcro Straps allow the IPV-Pouch to securely strap to the bedrail and can be easily moved to various other places. The IPV-Pouch is made from a breathable wicking material that removes moisture allowing the microbes to die naturally. The IPV-Pouch also has a snap button in the top center to partially close the pouch. The IPV-Pouch is also being used to hold the urine bottle at bedsides.

### **ADC-2.0:** 13”X11” (Velcro Straps)..... MSRP ~~\$3.99~~ Sale \$1.99

Replaced once per month or PRN, the ADC or “A Dignity Cover” is a breathable bag made from a porous spunbond fibers material that wicks out moisture allowing the microbes to die naturally. The current practice of using a non-breathable thick polyethylene bag allows the microbes to survive and thrive in a warm moist environment. The material and width of the ADC also allows one to easily replace and empty the catheter reservoir and the Velcro Straps can be cinched up tight or loosened as needed.

### **PIP-2.0:** 4”X6” (Peel & Stick Tape) ..... MSRP \$.89

Replaced once per month or PRN, the PIP or “Personal Items Pouch” is a breathable pouch used primarily to store reusable personal items such as a toothbrush, snore guards, night guards etc. The PIP can also be used for other items such as hearing aids, eye glasses and the like. Made from a breathable wicking material that removes moisture allowing the microbes to die naturally, the PIP with Peel & Stick tape can adhere to almost any surface. With a place to date and put ones name, the PIP is ideal for many reusable personal items.
